

# Digital Balemaster

## *Moisture Meter for Bales*

The Digital balemaster (GRN 6160) is a hand held instrument which displays the results on a large LCD Digital Display. The probe is made from strong durable stainless steel and is 600 mm long to reach the centre of big bales

Monitoring of moisture in hay and straw during bailing and before storage is important. High levels of moisture can lead to discolouration and will support the growth of moulds and fungi.

### Features

- Simple to Use
- Strong, robust stainless steel moisture probe (600 mm)
- Digital display

### Technical Specifications

Meter dimensions: 160 x 65 x 20 mm

Meter Weight: 230 g

Probe Weight : Standard : 520 g

Probe Dimensions: Standard: 600 mm long x 10 mm diameter  
GRN6148 Moisture Probe

Measurement range: 9% - 40% (guidance only above 30%)

Powered by: 1 x 9V battery (type 6F22) with an indicator to confirm battery condition

Display : Clear precise LCD display with green, yellow and red LED's indicating dry, borderline & wet
