

Elcometer 103 Blast Nozzle Gauge

The Elcometer 103 Blast Nozzle Gauge measures the orifice size of an abrasive blasting nozzle

This gauge is used to determine the nozzle orifice wear which leads to low nozzle pressure and decreased efficiency in the performance of the nozzle's venturi. Nozzle orifice wear results in decreased productivity and increased abrasive media consumption.

Technical Specifications

Part Number	Description
E103-A	Elcometer 103 Blast Nozzle Gauge
T10329146	Black Wax Pencil (Pack of 12)
T10323558	Red Wax Pencil (Pack of 12)
Measuring Range	6.4 - 16mm (81-548CFM)
Dimensions	200 x 19mm
Weight	150g

To ensure your nozzle provides continuous high production, as a general rule, replace your nozzle when the orifice wears by 1 nozzle size.

Packing List

Elcometer 103 Blast Nozzle Gauge
Wax/grease pencil (inside gauge)
Protective Pouch
Operating Instructions
