

Elcometer 127 Keane Tator Surface Comparator and Magnifier

Can be used in accordance with:
AS 3894.5, ASTM D 4417-A, SSPC PA 17

The Elcometer 127 Surface Comparators are available in sand, shot or grit surface profiles.

Each surface comparator is supplied with 5 profile grades ranging from 0.5 - 5.5mils.

Designed for use with the Elcometer 127 illuminated magnifier, each surface comparator has a hole in the centre allowing for clear visual comparisons to be made.

5 Roughness Values per Comparator.

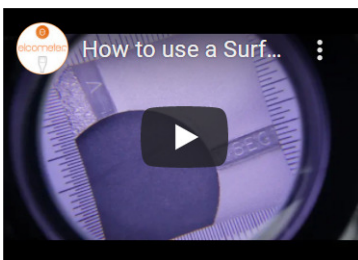

Technical Specifications

Part Number	Description	Section Profiles
E127----2	Elcometer 127 Sand Surface Comparator	0.5, 1, 2, 3, 4 mils
E127----3	Elcometer 127 Grit Surface Comparator	1.5, 2, 3, 4.5, 5.5 mils
E127----4	Elcometer 127 Shot Surface Comparator	2, 2.5, 3, 4, 5.5 mils
E127----1	Illuminated magnifier (x 5) with integrated surface comparator holder	-

If you are only required to quickly assess the surface profile of a blasted metal surface, then the easily transportable and easy to use Surface Comparators are the perfect choice. Put simply, comparators are a flat, steel plate which contain a number of reference surface profiles, formed on a corrosion resistant metal.
