

# Elcometer 137 LED Illuminated (x10) Magnifier

Can be used in accordance with:  
 AS 3894.9, AS 1580.408.4, ASTM D 3359-B, BS 3900-E6,  
 ECCA T6, EN 13523-6, ISO 2409, ISO 16276-2, JIS K 5600-5-6, NF T30-038

The Elcometer 137 Illuminated (x10) Magnifier is used to establish the level of material's condition, profile and cleanliness - ideal for close surface inspection.

From time to time a closer inspection of a surface is required to ascertain the exact conditions of the material's profile, cleanliness etc.

Furthermore, many environments can be in low light or dark areas - ballast tanks, oil and gas tanks, etc. The Elcometer 137 illuminated magnifier is the ideal product for the job.

- Lightweight, battery powered, portable magnifier
- Ideal for viewing surface comparators
- x10 magnification for close surface inspection
- Scaled lens for easy measurement of surface features

## Technical Specifications

Part Number	Description
H137----1	Elcometer 137 LED Illuminated Magnifier
Battery Type	2 x LR14 (C)
Dimensions	33 x 215mm
Weight	236g

## Packing List

Elcometer 137 LED Illuminated Magnifier
Operating Instructions
